PROFILE SUMMARY

Computer Science undergraduate with practical exposure to software development through internships and academic projects. Skilled in building web applications and software solutions, with a strong foundation in programming, databases, and core computer science concepts. Passionate about solving technical problems, developing reliable solutions, and learning new technologies. Eager to contribute to a collaborative development team in developing, testing, and maintaining software.

EDUCATION

Stanley College Of Engineering & Technology For Women

2023 - 2027

B.E - Computer Science and Engineering | CGPA - 8.89

Abids, Hyderabad

Narayana Junior College

2021 - 2023

Intermediate - MPC | Percentage - 89.8%

Kukatpally, Hyderabad

Shraddha-The School

2020 - 2021

SSC | CGPA - 10

JNTU, Hyderabad

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, DBMS
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases & Tools:** MySQL, SQL, Git, GitHub, VS Code
- **AI & Data:** Machine Learning, Natural Language Processing (NLP), NumPy, Pandas, Scikit-learn

PROJECTS

1. Fake News Detector | Machine Learning

- Developed a fake news detection system using NLP and an LSTM model to classify news articles.
- Performed data preprocessing, vectorization, and model training using the Kaggle Fake News dataset.

2. Skill Forge | Interactive Web-Based Application

- Developed an interactive coding platform featuring coding challenges, interview simulations, and leaderboards.
- Implemented user-focused features to improve engagement and provide a structured practice experience.

3. PG Life | Full-Stack Web Application

- Developed a responsive web application for searching and booking PG accommodations.
- Implemented user authentication, property search, and database integration to support core application functionality.

INTERNSHIPS

1. Software Development Intern | Purview Services

April 2026 - Jun 2026

- Contributed to an AI-powered Loan Recovery Agent using React, FastAPI, and Python.
- Worked on sentiment analysis, intent detection, risk scoring, and recommendations for customer interactions.

2. Summer Intern (ML & DL) | SCETW

May 2025 - June 2025

- Performed data preprocessing and feature extraction for a fake news detection project.
- Assisted with model training and evaluation, analyzing results to identify improvements.

3. AI & ML Intern | AICTE Edunet Foundation

June 2025 - July 2025

- Developed a machine learning solution for water quality prediction using Python.
- Applied analytical problem-solving, feature selection, and model evaluation to improve performance.

CERTIFICATIONS

- NPTEL - Java Programming
- Internshala - Web Development
- Infosys Springboard - CSS & JavaScript
- Udemy - Python
